Memorial Drive Reconstruction Project

To Whom It May Concern:

I support the City of Houston's proposed Memorial Drive Reconstruction Project, which plans to make a safer thoroughfare on Memorial from Kirkwood to Eldridge. If approved, the project will improve the road that segues to our campus and near our leased space at Three and One Eldridge.

This initiative aligns with our BP WestLake's goal of developing, managing and maintaining a safe, secure and reliable campus for our growing employee population. Many of our employees bike to work, so the new street's added sidewalks will make it much easier for pedestrian and cyclists alike to get around safely.

We at BP WestLake have already invested in many improvements on our campus that also benefit the neighboring communities, including expanded sidewalks along WestLake Park Boulevard and Grisby, as well as enhanced streetlighting for vehicles and pedestrian to name a few.

The Memorial Drive Reconstruction Project is another important community-friendly development that will improve traffic flow and make commutes safer. Please accept our support and contact me if you have further questions. Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink that reads "Yvonne F. Clay".
